DIRECTOR'S MESSAGE

JUNE 2026

| www.siscertifications.com

Message from Director
Mr. Arunendra Dvivedi

Dear Team,

June has been a month of meaningful progress, bringing new conversations, expanding horizons, and fresh opportunities for SIS Certifications.

Travelling this month reinforced something we've seen throughout the year: the relationships we've built over time are opening doors across geographies. Partnerships founded on trust are creating new opportunities, and that is something every member of our team should take pride in.

Across industries, compliance is no longer viewed as a checkbox but as a business differentiator. Our IAS-accredited certifications, covering ISO 27001, ISO 22301, ISO 9001, and 20+ other standards, continue to help organisations strengthen trust, resilience, and credibility.

As we move into July, our focus remains unchanged: delivering operational excellence, embracing technology-led assurance, and building lasting client confidence—one certification at a time.

Thank you for your continued dedication and partnership. Wishing you all a productive and successful July ahead.

Arunendra Dvivedi

BAJAJ AUTO CREDIT LIMITED Reinforces Secure Digital Operations with ISO 27001

BAJAJ AUTO CREDIT LIMITED has maintained its ISO 27001 certification following its surveillance audit. This certification is a testament to the company's commitment to information security and data protection for both the company and its clients. The certification covers information technology services from the Pune location, including network system administration, end-user computing, application support, and database administration.

Andersen in Nigeria Enhances Trust Through ISO/IEC 27001:2022

Andersen in Nigeria has successfully achieved ISO/IEC 27001:2022 certification from an IAS-accredited certification body. This achievement reflects the organisation's commitment to maintaining a robust information security framework while delivering professional advisory and technology-enabled solutions.

Heartiest congratulations to Andersen in Nigeria on taking a step forward towards an Information Security

Management System (ISMS). It further highlights its emphasis on structured processes, client confidence, regulatory compliance, and continual improvement across its operations. By embedding an Information Security Management System (ISMS) into its business processes, Andersen in Nigeria demonstrates its dedication to safeguarding information and managing security risks effectively.
