We Do Not Sell, We Certify!

SEPTEMBER 2023 NEWSLETTER

MONTHLY UPDATED
BUSINESS NEWS

DIRECTOR'S MESSAGE

I hope this message finds you in good health and high spirits. As we gather once again to share the latest developments in the world of certifications, I am filled with a profound sense of pride and gratitude for the journey we have embarked upon together.

SIS Certifications has always stood as a beacon of excellence, guiding organizations towards a brighter and more sustainable future. Our commitment to integrity, quality, and innovation has been unwavering, and it is this steadfast dedication that continues to drive us forward.

The past month has been nothing short of remarkable. We have expanded our services, delving into new industry sectors, and strengthening our global presence. SIS Certifications did certifications and audits for brands like, SBI (AML-CFT) Cell, Seaga India Pvt Ltd, EKO Electricity Distribution Company and many more. Our partnerships with organizations that share our vision have flourished, allowing us to create a network of collaboration that enhances the value we bring to our clients.

At SIS Certifications, we firmly believe that certifications are not just about compliance; they are about transformation. We help businesses transcend boundaries, achieve their goals, and make a positive impact on society and the environment. Our commitment to sustainable practices and responsible certifications remains unwavering, and we encourage all our partners and clients to join us in this noble endeavor.

As we look ahead, our vision remains crystal clear: to be the leading force in certifications, setting new benchmarks for excellence, and empowering organizations to thrive in a competitive world. Together, we will continue to achieve remarkable milestones and make a lasting impact. Here's to a future filled with success, growth, and meaningful change.

Warm regards,
Mr. Arunendra Dvivedi
Managing Director

BUSINESS NEWS

Everything You Need to Know about ISO 13485:2016 Certification?

ISO 13485:2016 is a golden standard for Medical Devices – Quality Management Systems (MDQMS). The certification recognized the need and requirement for business organizations to deliver safe and quality medical devices. The last version of the certification is ISO 13485:2016 certification.

The Cost of Non-Compliance: Why ISO 21001 Matters?

ISO 21001:2018 certification is a globally recognized standard that signifies an educational organization's commitment to delivering high-quality education services. It focuses on establishing an effective Educational Organisation Management System (EOMS) that ensures the fulfillment of educational objectives, student satisfaction, and continuous improvement.

Anti-Bribery Management System as A Tool to Increase the Quality of Life

An effective ISO 37001:2016 Certification standard can have numerous benefits for both individuals and communities. By combatting corruption and bribery, such a system ensures better access to quality services and resources for everyone involved.

Why ISO 22301 is Crucial for Business Continuity and Disaster Recovery.

An effective ISO 37001:2016 Certification standard can have numerous benefits for both individuals and communities. By combatting corruption and bribery, such a system ensures better access to quality services and resources for everyone involved.

Artificial Intelligence is changing the dynamics of the Electronic Sector

The electronics sector is the foundation of an economy which boosts GDP, employment, and innovation. The sector encourages entrepreneurship and innovation by creating new opportunities for business expansion and capital investment. The electronics sector enables economic advances in every other industry by embracing new technology.

What is the role of ISO 22000:2018

Certification in ensuring the Safety of Food Products?

What is the role of ISO 22000:2018
Certification in ensuring the Safety of Food Products?

The common concern shared by customers and food supply chain industries is related to the safety and quality of food products. Food safety is significant for public health and the reputation of food companies. Moreover, it is the responsibility of organisations to ensure the delivered food people are safe and free from contamination. The International Organisation for Standardisation (ISO) has developed ISO 22000:2018 certification. Furthermore, the standard mandates organisations to maintain and measure the security and quality of food products.

What is the ISO 13485 standard for medical devices?

What is the ISO 13485 standard for medical devices?

In the fast-paced and ever-evolving world of the medical device industry, ensuring the highest standards of quality is paramount. With patient safety at stake, it is crucial for companies operating in this sector to have robust quality management systems in place.

This introduction will shed light on the importance of quality management in the medical device industry and how it contributes to regulatory compliance, adherence to ISO 13485 standards, and overall success in the healthcare industry.

Quality Management of Medical Devices – ISO 13485 Implementation Guide.

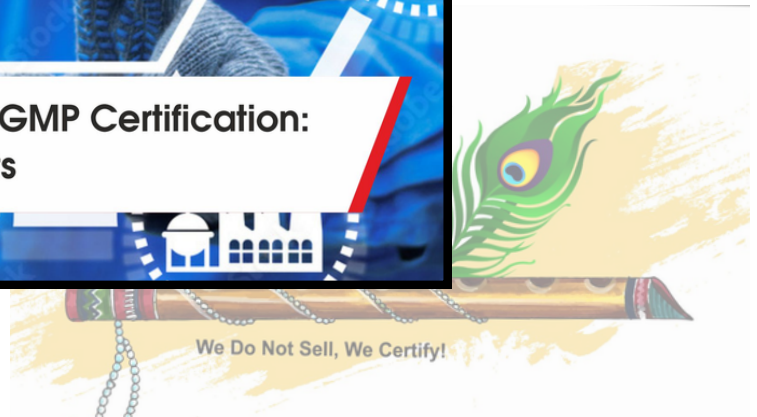

ISO 13485:2016 is a quality management system specifically designed for medical devices and related services. It helps organizations to demonstrate their ability to provide medical devices and related services that consistently meet customer requirements and regulatory requirements applicable to medical devices and related services.

Artificial Intelligence for Food Sector

Artificial Intelligence is revolutionising the food industry. Moreover, it enables organisations to provide personalised nutrition recommendations by enhancing safety through quality control and optimising agriculture. AI-driven automation improves food processing by streamlining supply chains and elevating customer experiences with chatbots. Artificial Intelligence can reduce waste and foster sustainability by predicting market trends.

The Roadmap to GMP Certification: Steps and Benefits

Good Manufacturing Practices (GMP) accreditation has emerged as a critical benchmark for guaranteeing product safety, quality, and compliance in today's highly regulated and quality-driven sectors. Organisations can outline the road plan to attain GMP certification and maintain high manufacturing standards. This article outlines the essential procedures for acquiring GMP certification and outlines the many advantages it provides to organisations.

ISO 22000 :2018

Food Safety Management Systems

ISO 22000 is an international standard for food safety management systems, designed to ensure the safety of food products during production and distribution. It specifies the requirements for a food safety system that involves Hazard Analysis and Risk-based preventive controls (HACCP), as well as other aspects such as product traceability, employee training and monitoring. Food safety is a major concern on a worldwide scale. It might be described as the actual knowledge that ingesting food would not cause harm or sickness. With ISO 22000 certification, businesses can demonstrate their commitment to producing safe food and beverages for consumers. The standard applies to all types of organizations involved in the food chain, from farm to fork. Companies that comply with ISO 22000 are better equipped to minimize risks related to food safety and contamination, while also improving their reputation among customers.

Demystifying ISO 27701: A Comprehensive Guide to Privacy Information Management Systems

In today's digital age, the protection of personal data has become a paramount concern for individuals and organizations alike. With the increasing reliance on technology and the vast amounts of data being collected, it is crucial to have robust systems to ensure this information's privacy and security. This is where Privacy Information Management Systems (PIMS) come into play. PIMS refers to a set of processes, policies, and procedures designed to manage and protect personal data in compliance with relevant regulations such as ISO 27701 Standard.

Achieving ISO 27701 Compliance: A Step-by-Step Journey.

We Do Not Sell, We Certify!

We live in an increasingly data-driven world, where data privacy and security have become paramount concerns for organizations. Data collected and stored by the organization is an invaluable information asset. However, it is the responsibility of the organizations to safeguard vulnerable data of their clients and customers.

When is the right time for an organisation to go for ISO 22000:2018 Certification?

In today's globalised and highly competitive business environment, organisations across various industries are constantly seeking ways to improve their processes, enhance product quality, and ensure the safety of their products. One effective way to achieve these goals is by obtaining ISO 22000 certification.

ISO Management System Standard: A Powerful Marketing Tool for Organisations

Producing quality products or services is not sufficient for an organisation in the current cutthroat business environment. Businesses must stand out from the competition and win over customers' trust. Organisations can establish trust and credibility with ISO management systems. Moreover, it is one of the persuasive approaches to leverage your business in the market. Organisations can use the ISO (International Organisation for Standardisation) standards as a framework to show their dedication to quality, environmental sustainability, information security, and other issues. Including ISO standards in your marketing plan helps strengthen your brand's reputation and attract affluent customers.

Subject: Sincere appreciation

Dear Sir,

On behalf of Merino Consulting Services (MCS), I thank SIS Certifications for guidance, consistency, transparency, professionalism and reliability, throughout the audit scheduling and audit in our premises. The audit went great.

SIS Certifications' Auditors are true professionals and did an outstanding job! They have a great understanding of the standards and how it applies to our scope of work. Both the auditors were exceptional with information & suggestions and very knowledgeable in their respective fields. They had our staff feeling at ease during entire audit process.

SIS Certifications is a great organization to work with and has been a wonderful partner in supporting MCS for quality management and information security management journey.

We enjoyed working with SIS Certifications and we are sure that this will be an ongoing long association. We recommend SIS Team to others.

With thanks and regards,

Sampat Sharda

Certificate of Appreciation

Seaga India Pvt. Ltd. heartily wishes to express its appreciation for exceptional services provided during our ISO certification process by Team SIS Certification.

Your professionalism, efficiency, and expertise have truly outstanding throughout this journey. From the initial consultation to the final certification audit, your organization has consistently demonstrated a commitment to excellence.

In particular, we would like to commend SIS Certification for:

The auditors conducted themselves with the utmost professionalism, making the entire certification process seamless and stress-free for our organization.

Your deep understanding of ISO standards and their application to our industry was evident.

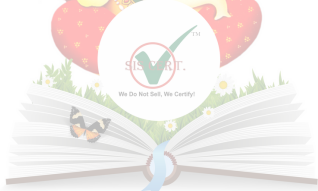

Your clear and transparent communication kept us well-informed at every stage, ensuring there were no surprises along the way.

The auditors' attention to detail and thoroughness in assessing our compliance were highly commendable.

Once again, thank you for your services. We appreciate your hard work and commitment to quality standards.

Best Regards,
Director

ISO 9001:2015 FEEDBACK

I am very happy and proud to announce that our company has successfully obtained the ISO 9001:2015 certificate, which is the international standard for quality management systems. This is a great achievement that reflects our commitment to quality, customer satisfaction, and continuous improvement.

The ISO 9001:2015 certification process was challenging but rewarding, thanks to the guidance and support of the SIS Team, auditors, and staff. They helped us to identify and address the gaps in our processes, document our procedures, implement corrective actions, and monitor our performance. They also provided us with valuable feedback and best practices to enhance our quality management system.

The ISO 9001:2015 certificate is not only a recognition of our efforts, but also a motivation for us to keep improving our services and products. We believe that this will benefit our customers, partners, and stakeholders, as well as our own organization. We look forward to maintaining and exceeding the ISO 9001:2015 standards in the future.

Best Regards,
Victor Ejemuta

Employee Appreciations

There is no doubt that you have made your presence an invaluable one at SIS Certifications!

We will never stop appreciating you as you commit to upholding our values and vision.

Congratulations!

Employee Testimonial

I Abhishek Pratap Singh is delighted to provide this monthly testimonial for my role as the Operations Head at SIS Certifications Pvt. Ltd. over the past three years. During this time, I have had the privilege of leading and contributing to our organization's growth and success in several key areas.

In my role as Operations Head, I have strived to be a visionary leader. I have developed and executed strategic initiatives that have propelled our operations to new heights.

This includes optimizing processes, fostering a culture of innovation, and setting clear, achievable goals for the team.

My commitment to operational excellence has been unwavering. I have diligently worked to streamline our processes, making them more efficient and cost-effective. This has not only improved our internal operations but also enhanced our ability to deliver exceptional service to our clients.

I take immense pride in my ability to foster collaboration and nurture talent within the team. Over the past three years, I have mentored and guided team members, helping them grow both professionally and personally. Our collective success is a testament to the strength of our teamwork

I have consistently approached challenges with a problem-solving mindset. Whether it was addressing complex operational issues or identifying opportunities for improvement, I have been dedicated to finding creative and effective solutions.

Through my dedication and hard work, I have contributed significantly to our company's growth and success. Our operations have become more efficient, leading to cost savings and increased profitability. We have also improved our client satisfaction levels, resulting in a stronger reputation in the industry.

I have upheld the highest standards of professionalism and integrity throughout my tenure. Confidentiality, ethics, and trust have been the cornerstones of my approach to every aspect of my role.

In summary, my time as the Operations Head at SIS Certifications Pvt. Ltd. has been a rewarding journey of growth, learning, and achievement. I am proud of the positive impact I have made on our operations and our team, and I am excited to continue contributing to our organization's continued success.
