SIS CERTIFICATIONS

WE DO NOT SELL, WE CERTIFY

It gives me great pleasure to inform you that our organization has recently undergone a complete on-site assessment audit by the International Accreditation Service (IAS) and we have successfully met the required standards for accreditation.

This achievement highlights our commitment to maintaining the highest levels of quality and excellence in our operations. The International Accreditation Service (IAS) is a leading accreditation body that evaluates organizations based on their compliance with internationally recognized standards, and we are proud to have received their accreditation

The International Accreditation Service (IAS) auditors have commended us on our transparency, accountability, and adherence to the highest standards of governance. This is a testament to the hard work and dedication of our staff and management team.

The audit covered various areas of our operations, including financial management, procurement, contract management, human resource management, and information technology system (IT) systems. The auditors scrutinized our processes and systems, reviewed our documents and records, and interviewed our staff and management team.

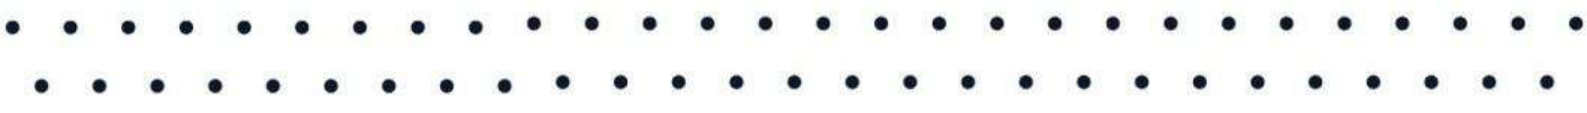

The audit identified a few areas where we can further improve our processes and systems. We have already taken steps to address these areas, and we will continue to do so in the coming months. We remain committed to ensuring that our organization operates with the utmost integrity and efficiency.

We would like to take this opportunity to thank the International Accreditation Service (IAS) auditors for their professionalism, expertise, and dedication. We would also like to thank our staff and management team for their hard work and cooperation during the audit process.

Thank you for your ongoing support, and we look forward to continuing to provide you with the highest levels of quality and service.

DIRECTOR'S MESSAGE

IAS ASSESSMENT

IAS witness auditor involves conducting assessments and audits of ISO certification bodies to ensure their compliance with applicable standards and requirements.

Being recognised as a Management Systems Certification Body by IAS gives us great pride and joy. Our clients who receive SIS CERTIFICATIONS will benefit from increased recognition, credibility, and confidence as a result of this accomplishment.

Expanding the certification services and receiving accreditation from IAS for ISO/IEC 17021 demonstrate our dedication to excellence, competence, and a never-ending quest for improvement as we work to realise our objective of setting the standard for professional certification services worldwide.

IAS conducted a verification and validation process to ensure that SIS CERTIFICATIONS is impartial and objective as a certification body. It also confirmed that SIS CERTIFICATION'S certification process is conducted in a consistent, comparable and reliable manner.

This process required rigorous quality reviews of SIS processes and its certification programs. The process used by IAS to accredit certification bodies is based on an international standard.
