**MONTHLY  
UPDATED  
BUSINESS NEWS**

As we navigate through the ever-changing landscape of the Certification Industry, I wanted to take a moment to express my heartfelt gratitude and appreciation for each and every one of you.

In the face of challenges, you have all shown resilience, dedication, and unwavering commitment to our company's vision and goals. Your hard work and innovative spirit have been instrumental in propelling us forward even in the most trying times.

I am immensely proud of what we have achieved together, but I am even more excited about the journey ahead. As we look to the future, let us continue to embrace change, adapt swiftly to new opportunities, and foster a culture of collaboration and excellence.

Our success is a testament to the strength of our team, and I have every confidence that together, we will overcome any obstacle and achieve even greater heights.

Thank you for your continued dedication and passion.

**Mr Arunendra Dvivedi**

Managing Director, SIS Certifications Pvt Ltd.

## **Primitive Analysis: The most common ISO non-conformity occurs in every organisation**

Primitive Analysis is an initial examination or assessment of an organisation's processes and practices to identify fundamental issues and potential non-conformities with ISO standards. However, an organisation must conduct it at the initial stages of pursuing ISO certification to outline the foundational challenges.

# Blogs

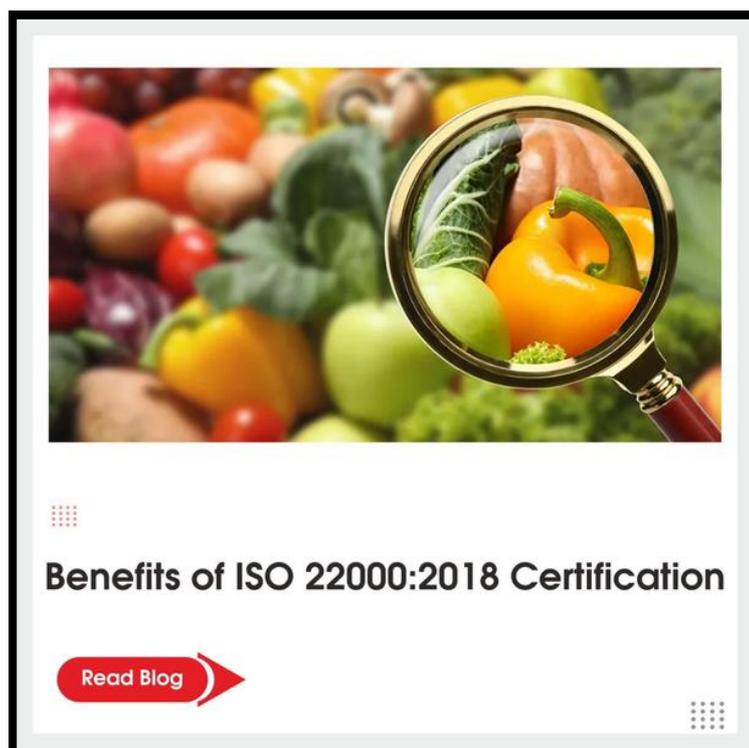

## ISO Certification in India- Online Process, Fees, Procedures.

The International Organisation for Standardisation (ISO) is an international non-governmental organisation; moreover, the body comprises national standards bodies. The organisation is to outline standards and frameworks for the best international and national practices.

## Benefits of ISO 22000:2018 Certification

An organisation that operates by the standards created and disseminated by the International Organisation for Standardisation (ISO) can receive ISO Certification. However, an ISO Certification is a kind of endorsement from an impartial third party. The advantages of various ISO Standards and Certifications vary, as an organisation involved in the food chain can implement the Food Safety Management System required by ISO 22000 certification. The advantages of ISO 22000 certification for the food industry are covered in this article.

## What are the requirements of ISO 41001:2018 Certification?

The ISO 41001 standard amalgamates individuals, locations, and procedures within constructed spaces to improve occupants' experiences and boost business productivity. However, the International Organisation for Standardisation (ISO) released the ISO 41001 for Facility Management System (FMS) in 2018. The certification is suitable for organisations, including public or private, irrespective of their size, scope, or geographical remoteness.
