Director's Desk...

As we bid farewell to the month of March, I wanted to take a moment to reflect on the journey we've undertaken together and the path that lies ahead. March has been a month of challenges, growth, and significant achievements for our organization.

Throughout this month, we have encountered changes, both expected and unexpected. We've navigated through them with resilience, adaptability, and a collective spirit that defines our team. From overcoming hurdles in projects to embracing new opportunities for innovation, each challenge has been met with determination and creativity.

One of the key highlights of March has been our commitment to progress. We've continued to push the boundaries of what's possible, striving for excellence in everything we do. Whether it's delivering exceptional results for our clients, fostering a culture of collaboration and inclusivity, or driving sustainability initiatives, our dedication to making a positive impact remains unwavering.

I am incredibly proud of the dedication and hard work demonstrated by each member of our team. Your passion, expertise, and unwavering commitment are the driving force behind our success. Together, we have achieved remarkable milestones and set the stage for even greater accomplishments in the months to come.

Thank you for your unwavering dedication and continued contributions to our shared vision. Together, we will continue to inspire, innovate, and make a difference.

Arunendra Dvivedi

What is PCI-DSS Certification ?

India's economy has shown strong resilience amid global uncertainties, with a robust growth of 6.9% in the fiscal year 2022-23. The real GDP growth is estimated to be 7.7% year-on-year during the first three quarters of FY 2022-23. India's financial sector remains strong, with improvements in asset quality and robust private-sector credit growth. The central government expects to meet its fiscal deficit target of 5.9% of GDP in FY2023-24.

Elevate Your Cosmetic Brand with ISO 22716 GMP Standards

**Elevate Your Cosmetic Brand with
ISO 22716 GMP Standards**

[Read Blog](#)

The image shows a close-up of a person's hands in white gloves filling a small glass bottle with a green liquid. The person is wearing a white lab coat. In the background, a factory setting is visible with a conveyor belt carrying several more bottles. The entire scene is framed within a white border with a black outline. There are small red and white grid icons in the top-left and bottom-right corners of the frame.

The **ISO 22716:2007** standard considers the unique requirements of the cosmetic industry and has been designed for their consideration. The manufacturing, supervision, packaging, and distribution of cosmetics are the main topics of the standard. These recommendations include technical, administrative, and human resource management guidance that is both organized and useful in enhancing the quality of the final output.

ISO 21001:2018 Certification – A valuable tool to make Educational Institutions more student centric

Education helps people improve their living standards while strengthening ties to the community and preparing us to contribute as valued members of society. People can learn new things, widen their perspectives, and improve their outlook on life. Education prepares students for the workplace, life, and the future by laying out clear, measurable standards. The **International Organisation for Standardisation (ISO)** has created the ISO 21001 Certification for educational institutions to build and enhance a more effective teaching-learning environment.

Employee Testimonial

My name is Rajat Khandelwal and I have 3 years of experience in SEO. I am an employee of SIS Certifications in the Digital Marketing department. SIS Certifications started their journey 10 years ago and today we have become one of the most trusted ISO certification bodies all over the world.

In SIS Certifications I have been working here for the last four months as a Sr. SEO Executive. In SIS certifications my experience till now is good and knowledgeable. I learned a lot of things in SEO as well as about ISO certification bodies, before joining SIS Certifications I never heard about ISO Certificates. ISO Certificate is important for business growth. As I have joined recently, I am also learning on a daily basis. Which is helping me in my personal growth as well as professional growth. My overall experience with the company through the 1 year 8 months working here has been great. It is a great work environment, where people aren't only compensated fairly for their work, but given many opportunities to grow and learn new things in the field of work.

I'm happy to be a part of this SIS family, and I eagerly anticipate your insights and input to help get this company up to speed.

Regards

Rajat Khandelwal
