# DIRECTOR'S MESSAGE

**Dear Team,**

As we reflect on the month of June, I am filled with immense pride and gratitude for the remarkable progress we have made together.

It has been a month marked by achievements, continuous learning, and meaningful outreach — a true reflection of our collective commitment to excellence.

One of the key highlights this month was a significant milestone that reaffirms our dedication to upholding the highest standards in our services. SIS Certifications is thrilled to announce that we are **NOW OFFICIALLY ACCREDITED by IAS for ISO/IEC 20000-1:2018.**

This achievement not only validates our robust systems and processes but also strengthens the trust our stakeholders place in us.

The overwhelming response to our recent session on ethical business practices demonstrates the growing relevance of integrity-driven leadership. It also highlights the impact our organization has in fostering conversations that inspire awareness, learning, and professional development.

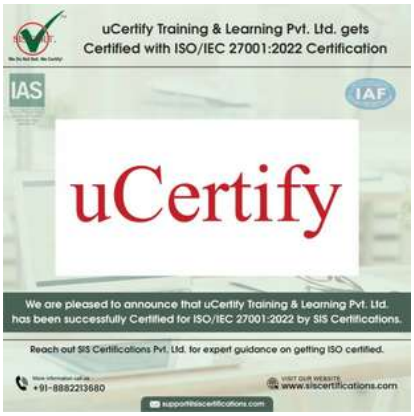
Each milestone we've achieved is a testament to the unwavering passion, hard work, and resilience of our incredible team. I extend my heartfelt thanks to everyone for your continued contributions and dedication.

As we step into a new month, let us carry forward this momentum — embracing innovation, nurturing integrity, and striving toward new goals with unity and purpose. The path ahead is promising, and with a team as committed as ours, I am confident that our future holds even greater success.

**Wishing you all continued growth, inspiration, and excellence in every endeavor.**

# BUSINESS NEWS

## *uCertify Training & Learning Pvt. Ltd. Earns ISO/IEC 27001:2022 Certification – Strengthening Information Security, Global Trust, and Digital Learning Excellence*



We are excited to announce a major milestone in uCertify Training & Learning Pvt. Ltd.'s journey toward operational excellence and data integrity. The company has successfully COMPLETED THE INITIAL AUDIT FOR ISO/IEC 27001:2022 certification, the globally respected standard for Information Security Management System (ISMS). This achievement highlights uCertify's strong commitment to protecting data, maintaining the highest standards of information security, and delivering a trusted online learning experience to customers across the world.

## *Jewel Impex Pvt. Ltd. Achieves ISO 9001:2015 Certification, Elevating Standards in Trading and Distribution Excellence*

We are thrilled to extend our warmest congratulations to Jewel Impex Pvt. Ltd. on successfully completing the initial audit for ISO 9001:2015 certification. ## *Auditing the Future: Why ISO/IEC 42001 Lead Auditor Training Matters in the Age of AI*

Artificial Intelligence isn't just the future anymore – it's happening right now. From chatbots handling customer service to AI systems making critical business decisions, we're living in a world where AI touches almost every aspect of our lives. But with great power comes great responsibility, and that's where ISO/IEC 42001 steps in as the game-changer for AI governance.

If you're wondering what all the fuss is about regarding AI auditing and why professionals are rushing to get certified, you're in the right place.

Let's break down why ISO/IEC 42001:2023 Lead Auditor Training has become one of the most sought-after qualifications in today's tech-driven world.

### What Makes ISO/IEC 42001:2023 So Important?

ISO/IEC 42001:2023 is the first global standard for AI management systems. Think of it as a practical guide to using AI responsibly. It helps organizations ensure their AI is ethical, safe, and effective—covering key areas like risk, data governance, and ongoing monitoring. In short, it answers the crucial question: "Is our AI doing the right thing the right way?"

### The Business Case for AI Auditing

AI auditing goes beyond compliance—it's about trust, risk reduction, and reputation. It helps prevent costly mistakes like bias or system failures. Companies with strong AI governance avoid legal issues and public backlash, staying ahead both ethically and competitively.

## *Essential Skills You'll Gain from ISO 9001, 14001 & 45001 IMS Lead Auditor Training*

In today's competitive business world, organizations are constantly looking for ways to improve their quality, environmental performance, and workplace safety. This is where ISO standards come into play, and professionals who can audit these systems are in high demand. If you're thinking about advancing your career in quality management, environmental management, or occupational health and safety, becoming a certified lead auditor could be your next big step. SIS Certifications is offering comprehensive Lead Auditor Training.

This intensive program covers three crucial ISO standards: 9001 (Quality Management System), 14001 (Environmental Management System), and 45001 (Occupational Health and Safety Management System). But what exactly will you learn, and how will these skills benefit your career? Let's dive in.

### Understanding the Foundation of Management Systems

The training starts with the basics—what management systems really mean. You'll explore how ISO 9001, 14001, and 45001 work together to improve quality, reduce environmental impact, and ensure workplace safety. Far from just paperwork, these systems drive real, measurable improvements and lay the groundwork for effective auditing.

### Gaining Industry Recognition and Career Advancement

Completing lead auditor training boosts your career with globally recognized credentials. It opens doors to roles in various sectors—manufacturing, healthcare, services, and more—as an internal auditor, consultant, or certification body auditor. The certification enhances your credibility, increases earning potential, and offers greater career flexibility both locally and internationally.

# ACHIEVEMENT

***WE are NOW OFFICIALLY ACCREDITED by IAS for ISO/IEC 20000-1:2018***

**What is ISO ISO/IEC 20000-1:2018?**

ISO/IEC 20000-1:2018 Information Technology Service Management System (SMS) is an international standard for IT service management (IT-SMS). It provides a framework for businesses to effectively administer their IT services, while ensuring that they satisfy both client and company requirements. This standard assists enterprises in streamlining their procedures, improving service delivery, and aligning IT services with wider corporate objectives.

ISO/IEC 20000-1:2018 IT-SMS provides clear principles for developing a strong Service Management System (SMS), whether you lead an IT department or provide IT services for a business.

**ISO IEC 20000-1 Certification services that help you identify gaps for improvement within your IT service management system ITSMS**

ISO/IEC 20000-1 is an internationally required standard that provides the framework for implementing Service Management System (SMS) in your organization. ISO 20000-1 certification helps to provide the necessary requirements to manage services in your organization in a defined quality. This standard is based on the description of the required processes that are well-described by the IT companies. An ISO/IEC 20000-1 certified management system includes the planning, design, transition, delivery, and improvement of services in the organization to fulfill the requirements of ISO/IEC 20000-1 Certification.

## *Webinar Highlight:-*
## *ISO/IEC 17025:2017 Testing and Calibration Laboratories*

We are pleased to share the successful completion of our insightful webinar on ISO/IEC 17025:2017, held on 12th June 2025. The session was expertly led by Ms. Kowsalya, a seasoned professional in the field of laboratory quality management. With active participation from professionals across laboratories, testing centers, and quality assurance departments, the webinar underscored the critical importance of ISO/IEC 17025 in ensuring technical competence and the validity of test and calibration results.

✅ **Key topics covered:**

Understanding ISO/IEC 17025 requirements
Enhancing lab competence and impartiality
Steps to achieve accreditation
Real-world Q&A and implementation strategies
A big thank you to all the attendees for making it a valuable session!

**Speaker: Ms. Kowsalya – Subject matter expert in laboratory management systems**

The session was designed to equip participants with insights into the standard's requirements, implementation approaches, and the strategic benefits of accreditation. It was well received by professionals from laboratories, quality assurance teams, and compliance units.
We thank all attendees for their active participation and engagement in making this session a success.

# ISO 45001:2018 Certification

***ISO 45001 Occupational Health and Safety Management (OHSMS) Certification***

## Overview

ISO 45001:2018 is an international standard developed by the International Organization for Standardization (ISO) that specifies requirements for an Occupational Health and Safety Management System (OHSMS). It provides a framework to improve employee safety, reduce workplace risks, and create better, safer working conditions worldwide.

## Purpose

The purpose of ISO 45001 is to help organizations proactively manage occupational health and safety risks. The standard is designed to prevent work-related injuries, illnesses, and fatalities by enabling organizations to implement robust health and safety policies, processes, and controls aligned with legal and regulatory requirements.

## Applicability Across Industries

ISO 45001 can be implemented by organizations of any size, sector, or geographical location. From manufacturing units and construction sites to corporate offices and service providers, this standard is applicable across industries where employee well-being and safety are essential. By adopting ISO 45001, organizations showcase their commitment to creating a safe work environment and protecting the health of their workforce.

## Strategic and Ethical Benefits

ISO 45001:2018 certification highlights an organization's commitment to employee safety and continuous health and safety improvements. It builds trust, reduces workplace incidents, boosts morale, and enhances reputation. By embedding safety into the organizational culture, it supports both compliance and responsible governance.

## Get Certified with SIS Certifications

Are you ready to prioritize employee well-being and create a safer, more resilient workplace? Contact SIS Certifications today to learn how ISO 45001:2018 certification can help your organization enhance workplace safety, comply with legal requirements, and demonstrate leadership in occupational health and safety.

## Sustainable Growth Through Safe Practices

Implementing ISO 45001 is more than a compliance measure—it's a foundation for long-term, sustainable growth. A safe work environment reduces accidents, improves productivity, and builds a culture of care and accountability. Protecting your workforce not only minimizes legal and operational risks but also strengthens your organization's ability to grow with stability and confidence.

## A Step Toward Responsible Growth

Embracing ISO 45001:2018 reflects a strategic decision to put people first. It shows that your organization values its employees and is committed to continuously improving health and safety standards. This proactive approach fosters operational resilience and helps position your brand as a responsible and reliable business in any industry.

## A Commitment to Health and Safety Excellence

ISO 45001 is more than just a certification—it is a powerful statement of your commitment to protecting lives and promoting a culture of safety. In an evolving business landscape, organizations that safeguard their people are the ones that earn trust, maintain compliance, and build lasting success.

## Conclusion

ISO 45001:2018 empowers organizations to proactively manage risks, protect their workforce, and uphold a standard of excellence in workplace safety. With this certification, your organization sends a clear message that employee health and well-being are not just priorities—they are non-negotiable values at the heart of your success.
