DIRECTOR'S MESSAGE

January 2026

| www.siscertifications.com

Message from Director
Mr. Arunendra Dvivedi

Dear Team,

As we embrace the dawn of 2026, January marks a pivotal moment to celebrate our New Year achievements and propel our strategic momentum forward. My recent trip to Qatar (January 27–31) and Oman was a major highlight, where I engaged key stakeholders including Qatar National Bank, Qatar Financial Centre, Chambers of Commerce, IBPC, Engineers Forum, and QSTP to strengthen GCC partnerships.

These interactions underscored the surging demand for integrated compliance solutions in quality management, cybersecurity (ISO 27001/27701), environmental sustainability (ISO 14001), and occupational health (ISO 45001)—domains where SIS Certifications empowers clients as their premier partner for certification and consultancy across Gulf, South Asia, and beyond.

Business-wise, January has launched 2026 with robust growth, amplified international outreach to markets like Oman, Nigeria, and Philippines, and deepened client confidence. We've optimized internal operations, extended our accreditation scope, and guided enterprises toward international benchmarks that fuel resilience and market leadership.

Heading deeper into 2026, we prioritize elevating client success through innovation, talent development, and advanced tech integration for resilient ecosystems. My heartfelt gratitude to our dedicated team, valued clients, and collaborators for their unwavering commitment.

United, we're forging an unshakeable path to expansion and industry dominance ahead. Wishing you a triumphant January and a stellar year!

KAUL MEDIZINTECHNIK GMBH Strengthens Medical Device Quality with ISO 13485:2016 Certification

KAUL MEDIZINTECHNIK GMBH has successfully achieved UAF-accredited 13485:2016 certification. It shows the organisation's commitment to the highest standards of quality, safety, and regulatory compliance in the medical device sector.

ISO 13485:2016 is the globally recognized benchmark for quality management system specifically designed for organizations involved in the medical device lifecycle, where precision is non-negotiable and patient safety is paramount.

Achieving ISO 13485:2016 demonstrates that KAUL MEDIZINTECHNIK GMBH has established a robust, risk-based quality management framework that governs every critical stage from design and development to manufacturing, storage, and supply.

Firmable Pty Ltd Secures Data Protection with ISO/IEC 27001:2022 Certification

Firmable Pty Ltd has completed Surveillance 01 for IAS-accredited ISO/IEC 27001:2022 certification for Information security, cybersecurity and privacy protection – Information security management system (ISMS).

ISO/IEC 27001 certification demonstrates the organisation's commitment to protecting data in an increasingly intelligence-driven B2B ecosystem.

Achieving ISO/IEC 27001:2022 confirms that Firmable Pty Ltd has adopted necessary controls to protect data confidentiality, integrity, and availability across its digital operations.

India's Digital Payments Story Runs on One Invisible Layer: PCI-DSS

With a boom in the digital economy, India finds itself at the centre of the payments revolution, with UPI rails powering country's 85% of the country's transaction fabric. Digital payments are projected to reach \$10 trillion by this year, with the fintech sector's growth projection at 16.27% CAGR, \$95.3B by 2031.

While India's payment ecosystem is scaling, the card data risks are increasing, exposing thousands. Echoing the massive data breach incidents, such as the British Airways breach (2018), shows how payment data exposure escalates quickly when security controls fail. In real-world merchant cases, exposed PAN often traces back to everyday gaps like weak encryption and misconfigured systems.

SIS Certifications Strengthens GCC Presence with Strategic Qatar Visit

January 2026

www.siscertifications.com

Managing Director, Arunendra Dvivedi, concluded a high-impact five-day visit to Qatar (27th to 31st January, 2026), marking a significant milestone in our GCC expansion strategy.

Strategic Partnerships Forged

The visit featured crucial engagements with leading institutions including Qatar National Bank (QNB), Qatar Financial Centre (QFC), Qatar Chamber of Commerce, Indian Business and Professional Council (IBPC), Engineers Forum Qatar, and Qatar Science & Technology Park (QSTP).

Market Insights & Growing Demand

Discussions revealed accelerating demand for ISO certifications—particularly ISO 27001 for cybersecurity and ISO 9001 for quality management—across finance, technology, and construction sectors. This trend aligns seamlessly with Qatar's National Vision 2030 and its focus on digital transformation and operational excellence.

Looking Ahead

The visit secured promising partnerships and reinforced SIS Certifications' position as a trusted compliance partner in the region, furthering our commitment to global leadership in certification services.

DIRECTOR'S MESSAGE

December 2025

www.siscertifications.com

Message from Director
Mr. Arunendra Dvivedi

Dear Team,

As we close 2025, December offers a moment to reflect on our journey and reaffirm our long-term vision.

Our participation in the Indus Tech Expo was a key highlight of the month. The interactions with industry leaders and innovators reinforced the growing importance of quality, compliance, digital transformation, sustainability, and operational resilience—core areas where we continue to support our clients as a trusted certification and consultancy partner.

From a business perspective, 2025 has been a year of steady growth, expanded global engagement, and strengthened client trust. We enhanced our processes, broadened our reach, and helped organizations align with international standards that drive credibility and sustainable success.

As we move into 2026, our focus remains on delivering greater customer value, investing in people and technology, and enabling businesses to build future-ready systems.

I sincerely thank our team, clients, and partners for their continued support. Together, we are laying strong foundations for growth and leadership in the years ahead.

Wishing you a successful close to the year and a progressive start to 2026.

Vakils Premedia Pvt. Ltd. achieves ISO 9001 & 27001 Certifications

Vakils Premedia Pvt. Ltd. has successfully completed Surveillance 01 for IAS-accredited ISO 9001:2015 and ISO/IEC 27001:2022 certifications, reinforcing its commitment to quality excellence and robust information security practices. These certifications demonstrate the organisation's structured approach to delivering consistent quality while safeguarding information assets across its operations.

Achieving ISO 9001:2015 Quality Management System (QMS) certification confirms that Vakils Premedia has established process-driven controls to enhance service quality, streamline workflows, manage risks effectively, and drive continual improvement. It ensures that customer requirements, regulatory obligations, and internal quality benchmarks are met—not by chance, but by design. In parallel, ISO/IEC 27001:2022 Information Security Management System (ISMS) certification validates the organisation's ability to identify, manage, and mitigate information security risks. The standard ensures appropriate controls are in place to protect data confidentiality, integrity, and availability across digital platforms, client interfaces, and business-critical systems.

VRB Consumer Products Private Limited achieves ISO/IEC 27001:2022 Certification

VRB Consumer Products Private Limited received ISO/IEC 27001:2022 Certification for Information Security, Cybersecurity and Privacy Protection — Information Security Management System (ISMS). Achieving ISO/IEC 27001 Certification ensures that the organisation adopts appropriate controls for data privacy and information security.

ISO 27001

How to Choose the Best ISO 27001 Certification Body (Step-by-Step Guide)

Data breaches can happen at any time, and regulators or clients can also act without warning. ISO/IEC 27001 certification is a smart move that helps organisations manage data privacy and information security. However, choosing the right ISO 27001 certification body is where most organisations either gain significant benefits or waste time, money, and credibility.

There are dozens of certification bodies claiming “global recognition.” It’s easy to get distracted by pricing gimmicks and fast-track promises that quietly backfire during audits or customer due diligence.

This step-by-step guide cuts through the noise and shows you how to choose the best ISO 27001 certification body, one that is properly accredited, internationally accepted, audit-credible, and aligned with your business goals. In information security, a weak certification body is almost as risky as having no certification at all.

State Bank of Mongolia Renewed ISO/IEC 27001:2022 Certification

On December 12, 2025, State Bank of Mongolia has successfully renewed its certification under the international information security management standard ISO/IEC 27001:2022. This recertification confirms that the bank's systems, processes, and practices for managing information security meet international requirements.

The certification was awarded by SIS Certifications Pvt. Ltd. (India) and the Mongolian partner ABS Certification LLC, after a comprehensive audit of the bank's information security management system.

This achievement demonstrates State Bank's commitment to maintaining high standards of information security, ensuring that customer and business data is protected according to global best practices. It also strengthens trust among its customers, investors, and partners by showing that the bank safeguards information in line with internationally recognized benchmarks.
